

COVER STORY

Light World, Inc. opened its doors over 40 years ago in the basement of a building located on Pearl Street. From the very beginning, Light World has established itself as one of the best sources, for lighting, in Fort Wayne. Privately owned, Light World has experienced many changes over the years. We've sold kitchen cabinets, appliances, as well as furniture, but through it all, lighting has been our hallmark.

What hasn't changed is the knowledge and experience of the Light World sales and support staff. Working closely with builders and their customers in new construction or remodeling, our team of certified lighting specialists (ALA) can help the customer make the perfect choices. Our sales team has withstood the test of time totaling over 50 years of lighting knowledge.

In recent years, the lighting industry has developed new technologies. Our expert staff works hard to keep up to date in all applications. Some of these include LED lighting, energy efficient fluorescent lighting, and low voltage lighting for indoor and outdoor use.

From Pearl Street, to State Street, to Hovan Drive and now our current location at 418 W. Coliseum Boulevard we look forward to the future. We invite everyone to stop in and experience the wide variety of chandeliers, paddle fans, bathroom fixtures, and outdoor lighting as well as lamps and accessories. The Light World staff is ready to assist you with any of your lighting challenges.

"LET US LIGHT UP YOUR WORLD!!!"
